

Southern CT State University-- Urban Oases Demonstration Site

Crescent St., New Haven, CT

As part of the New Haven Harbor Urban Refuge Partnership, habitat improvements are taking place at New Haven parks, schools and other urban green spaces. Native trees, shrubs, and flowers have been planted to provide cover, food, and habitat for wildlife and a place to learn, relax, and connect with nature for people. Audubon Connecticut is looking for help monitoring birds at these *Urban Oases* to determine whether habitat restoration is working.

To participate, visit an Urban Oases and keep a record of all the birds you see or hear. Then enter your observations for **just the demonstration site** into www.eBird.org. You can visit as many times as you'd like, at any time of the day. Mornings, particularly in Apr.-May and Aug.-Oct. when migrating birds will be using the sites, are recommended.
